---	-----------------------------------	--	---------------------------------------	--------------------------------------

Last updated: -6/6/2006

**ANTIETAM experienced a very successful year with zero safety mishaps across the spectrum from shipboard evolutions and daily work environments, to off-duty activities. We stressed incorporating Operational Risk Management in every evolution. ANTIETAM completed 2005 with ZERO SIGNIFICANT SAFETY MISHAPS ON BOARD.**

**ANTIETAM has attained a top-notch safety record, and has continuously demonstrated superior performance in maintaining a safe working environment. Across the spectrum of operational commitments, ANTIETAM breaks out ahead in safety awareness. ANTIETAM's targeted training, compliance with required programs, and full Chain of Command participation creatively make safety a part of every day life. Safety is everyone's primary concern on ANTIETAM. This is what makes ANTIETAM the finest and safest cruiser on the waterfront.**
