**Note:**  
The abatement date is established by the OSHA area office. The period of time to abate a hazard is the shortest interval that an employer can reasonably be expected to correct the violation.

The OSHA Act authorizes civil penalties be assessed for each alleged violation. Most Federal agencies are exempt from these fines. Penalties are based on four factors: 1) the gravity of the violation; 2) the size of the business; 3) the good faith of the employer; 4) the employer's history of previous violations.
