

## What If?

Y'know, some people have entirely too much faith in their co-workers. The two gents you see here are driving a grounding rod into the ground. The guy on the bottom got the raw end of the deal.

So let's play a game. I say "What If" and you answer the question in your mind. Ready? O.K.

*What if* the guy using the sledge hammer missed and bonked the holder on the head? *What if* he lost his balance and fell out of the backhoe bucket? *What if* a chip of metal broke off and flew toward the holder's face? *What if* the holder slipped and fell into the trench behind him? *What if* the holder sneezed just as hammer was coming down?

That was fun, wasn't it? Hey folks, here's a great idea ... play the "What If" game before you start working on a project. You just might be able to eliminate some hazards and prevent an accident.
