

## Single Family High Rise

If you're looking for a new house, I'd firmly recommend looking in another neighborhood. The people who planned this area don't seem to know much about construction.

Take a look at the angle of this driveway! Not exactly home-owner friendly, if you ask me. Can you imagine trying to open the garage door on an icy day? Besides, no normal car would be able to go up and down this ski-slope of a driveway without ripping the muffler off. Yikes!

But hey, look on the bright side, at least it's out of the flood zone, and you get a daily workout just going to get your mail.
